Student Vaccination Information

Capernwray Australia are committed to welcoming and encouraging all applications, regardless of their COVID-19 vaccination status, but we are also committed to providing a safe and healthy environment for all staff, students, guests, and anyone who comes in to contact with our organisation. We appreciate everyone's individual decision in getting the vaccine.

As we navigate our way through this pandemic, we are seeing increased freedoms which are heading in the right direction. With that said, in the current Covid climate, all those wanting to attend may want to consider the following:

- One of the joys of attending Capernwray is that we live in a close knit community (shared accommodation), and as one may appreciate, this may also present difficulties in providing care to all our students and staff, including those with underlying health conditions.
- Although not in all cases, there is potentially limited ministry opportunities for students enrolled in BDM courses who are unvaccinated, as many of the ministries we are involved in on a week-to-week basis such as schools, nursing homes, and food pantries currently require all volunteers to be vaccinated, as per NSW regulations.
- Unfortunately, at this time in many of the states that we travel to for our Aussie Road Trip, a mandatory vaccination is still in place to enter schools and other organisations that we may partner with. This is also an area that we have seen slowly opening up again.

We are continually encouraged by seeing things gradually returning to normal, and our hope and prayer is that this is only for the short term.

Adam Ismail
Director
Capernwray Australia
